

Funeral Services For the Late George H. Liesemer.

The funeral services for the late George H. Liesemer were held on Friday afternoon last at the Evangelical Church and were very largely attended, relatives and friends being present from all parts of the district.

The service at the church was conducted by Rev. A. S. Caughell.

The members of the King Hiram Masonic Lodge, of which Mr. Liesemer was a life member, attended the funeral in a body and bestowed the last rites of the Masonic Order at the graveside. Right Worshipful Bro. Conacher, of Calgary, performed the ceremony.

Canadian Legion Church Parade

The Canadian Legion will attend the Knox United Church on Sunday at 7:30 p.m. for their annual Remembrance Day Services. Rev. J. R. Geeson will conduct the services.

All returned men are invited to take part and meet at the hall at 7:00 p.m. promptly. From there they will proceed to the church.

20th Century Club

At a meeting of the executive held on Monday night it was decided to hold the regular social meetings every second Tuesday and the next meeting will be held on Tuesday, November 15th, which will take the form of a 'Mother Goose Party.' All who attend are expected to dress the part.

Badminton, volley ball and ping pong will be added to the activities of the club and sessions will be held each Wednesday afternoon and evening.

The membership for the regular social meetings will be 50c per month, but those who wish to take in the sport sessions will be asked to contribute 75c. per month.

It is also intended to hold a dance in the Opera House once every month.

"MAC'S SERVICE HARDWARE"

Mountain View Council.

The business conducted by the Mountain View Council at their meeting held at Olds on Saturday was mostly of a routine character.

A letter was read from the Department, recommending that in view of the fact that a large quantity of feed had been raised on the farms this year efforts should be made to conserve the same. It also stated that the "Straw Conservation Act" would be enforced. This act provides that it is unlawful to burn any straw stack unless a permit has been received to burn same.

Councillors Rupp and Kuehn were appointed delegates to the Municipal Convention to be held in Calgary on November 30th and December 1st and 2nd.

A grant of \$15.00 was made to the Olds branch of the Canadian Legion towards the erection of a memorial at Olds. A grant of \$15 was also made to the Mountain View Community Hall School Fair.

Notification was read that the rural school districts in the municipality had been included in the Large School District which had been recently organized.

There was considerable discussion regarding relief matters and the secretary reported that the amount of relief paid out during October totalled \$216.29.

Five applications for tax consolidation were approved and it was reported that two farmers had received certificates under Farmers' Credit Arrangement Act.

Senior Hockey Schedule Out

The hockey schedule for the Alberta Senior Hockey League has been released and calls for each team playing 16 home games and 16 away.

The league games will open in Edmonton on November 19th and in Calgary on November 23rd.

The Olds fans will have to wait until December 3rd for the first home game, when they will meet Edmonton. The Olds team is getting into shape on the Edmonton artificial ice.

Following are the home games at the Olds Arena:

December	3	Edmonton
"	6	Lethbridge
"	17	Turner Valley
"	23	Coleman
"	26	Turner Valley
"	31	Edmonton
January	4	Drumheller
"	9	Calgary
"	21	Lethbridge
"	23	Drumheller
"	28	Edmonton
"	30	Calgary
February	8	Edmonton
"	15	Calgary
"	18	Coleman
"	25	Drumheller

Knox United Church Notes.

Next Sunday in town at 7:30 p.m. there will be a special service in connection with Remembrance Day. The members of the Canadian Legion will be in attendance and a cordial invitation is extended to all. Special music will be rendered by the Junior Choir.

The usual services will be held at both country appointments.

Town Council.

Hospital By-laws Given Second Reading.

Will be Put to Vote.

The Didsbury Hospital By-laws, to empower the town to raise \$30,000 for the purpose of implementing the agreement with the municipalities of Mountain View and Westerdale to erect and equip a modern hospital at Didsbury, were given their second reading at the meeting of the town council held on Monday evening.

The hospital agreement by-laws have already been passed by the municipal districts of Westerdale and Mountain View and it now remains for the proprietary electors of the town to pass the by-laws for the hospital scheme to become an accomplished fact.

The by-laws will be placed before the voters for their approval on Monday. A two-thirds majority of the votes will be required to pass the by-laws. Mr. W. A. Austin was appointed returning officer to conduct the election.

It was decided to place signs on the highway at the points where the roads lead into town. Signs will also be placed Shantz Avenue indicating the school area, it having been brought to the attention of the council that motorists are driving too fast when passing the school.

Complaints that large trucks were parking on the business streets and impeding traffic, especially on Saturday nights, were brought to the council. It was therefore decided to amend the traffic by-law prohibiting trucks from parking at certain points in the business section and to require that trucks park lengthways to the street.

Didsbury Student Receives Medal

Donald Mortimer, a student at the Didsbury High School has received word that he has been awarded one of the bronze medals which have been given to the outstanding grade 9 students in Alberta by Lord Tweedsmuir, Governor General of Canada.

A medal is being awarded to one student in the Olds inspectorate, which extends from Innisfail to Crossfield, and is awarded to Donald as the candidate having achieved the highest standing in the grade 9 examinations of 1938 in the Olds Inspectorate.

Donald, who received exceptionally high marks in his examinations made honors in English, Mathematics, Science and Social Studies. He also received "A" in music, shop and typing.

We congratulate Don on his achievement and wish him similar success in his future examinations.

Canadian Legion Concert & Dance

On Armistice Day the Canadian Legion will hold their annual concert and dance, to commence at 8 p.m. in the Opera House.

Comrade Jack Robertson will have charge of the concert and some of the best local talent in the district will appear on the program. When Jack puts on a concert those attending can be assured of a good evening's entertainment.

Mr. George Clark, of Eagle Hill, will give an address during the evening.

After the concert there will be a dance, with "Mack's Rhymers" supplying the music.

Gypsy Nite.

Follow the crowds to Knox Church on Thursday night, November 17th at 8:15, for there you will see many pretty gypsies in beautiful costumes. They will be singing for you under the soft glow of colored lights.

Another feature on the programme will be the readings by Mrs. Hugget.

The Plight Of Youth

The phenomenon of young, unemployed men in large numbers wandering aimlessly all over the country in the past two or three months, some of them honestly looking for work and others professedly searching for jobs but hoping to avoid them, has been termed, and not without warrant, a "national disgrace."

There cannot but be sympathy for these youths. Many of them are offspring of thrifty, hard-working parentage. Many of them are fairly well educated, some even holding university degrees. Some of them are well equipped to occupy an honored place in the business and social life of the country and have the right attitude towards work, but they find that industry does not want them, has no place in its crowded ranks where they can fit in.

On the other hand, the ranks of these idle, footloose youth include some who are more shifty than thrifty, some who prefer to shirk rather than work, and some who are outright morons and ne'er-do-wells. Unfortunately, in the minds of a section of the general public, there is an inclination to include all of them in the latter category, and this tends to make the lot of those who are willing and eager to work and who are unable to do so through no fault of their own, harder to bear.

Unless something is done to enable these young men to find their place in the social and business life of the country, and particularly those who by upbringing, education and inclination are worthy material for citizenship, their ultimate fate is difficult to predict, beyond the general statement that it can hardly be expected to be creditable for themselves, their forbears or their country.

Action Is Needed

As stated at the outset, one cannot help but be sympathetic towards these youth and grieved at the predicament in which they find themselves, but sympathy alone is not sufficient. Sympathy must be translated into practical action if mental, moral and physical disaster is not to be the goal towards which they press. In other words, a helping hand must be extended, if not by private effort, by the governments of the country.

On the face of it the problem seems insoluble until such times as industry has sufficiently recovered from the slings and arrows of misfortune to enable it to absorb them. The only other solution, temporary or otherwise, is for the governments of the country to do something more than is now being done.

It will be argued, of course, that in the west, the federal government has made some provision to take care of these benighted youth by establishing the farm bonus plan and in providing the funds for the operation of youth training classes in the larger centres.

The former has and undoubtedly will again be of some assistance in aiding unfortunate youths but the farm bonus plan, after all, is only a seasonal and very temporary measure. It takes care for a few months of the year of one class of the unemployed young men and only a percentage of the total. Moreover, it does not ordinarily train for or lead in the direction of permanent employment for the great majority of its beneficiaries.

The youth training project, too, has undoubtedly merits. The educational opportunity it affords is excellent and unquestionably those who attend these classes and pursue their studies with diligence, thereby better equip themselves to occupy a place in industry if and when the opportunity to do so appears, but unfortunately it does not, at present, lead to self-support, the natural ambition of every right-minded youth.

Abundant Opportunity

All that youth training does, as yet, is to increase the number who are equipped to compete for the few vacancies that occur in industrial life at a period when trade and commerce, using the term in its broadest sense, has not emerged from the doldrums.

Until such time as industry is able to more adequately provide for the needs and ambitions of the youth of the country it would appear that the only thing for the senior governments to do is to make some provision to enable youth to give vent to its energies in the natural and proper manner through work, and this can best and most profitably be done through the development of the vast natural resources in which the country abounds.

One could list a number of projects which might be undertaken, the prosecution of which would restore moral tone and physical vigor to disappointed youth and at the same time yield some return to the taxpayers who would have to foot the bill. It is hardly necessary to enumerate such development possibilities. One has only to look around and see the opportunities.

There is plenty of work of a beneficial nature to be done and there are plenty to do it. Why not connect the two?

During the gold rush in Alaska, beefsteak sold for \$48 a pound at Circle City.

HOW YOU CAN ATTRACT MEN

Don't let love and romance pass you by. Men like girls with lots of pep and energy. So start taking time-proven Lydia E. Pinkham's Vegetable Compound and note the difference. It's a health compound, made especially for women, from wholesome herbs and roots, helps Nature tone up your system and thus calms irritable nerves and gives you more pep to really enjoy life.

For over 60 years one woman has told another how to go "smiling thru" distress from female functional disorders with Lydia E. Pinkham's Compound. Let it help YOU!

Wrong All Around

Clerk: "May I have the afternoon off to go shopping with my wife?"

Boss: "No."

Clerk: "Thanks."

Campaign For Conscription

Preparations In Britain To Be Ready In Event Of War

Sir Auckland Geddes, war-time minister of national service, appealed for re-establishment of a government office similar to the one he headed during the Great War, to ensure mobilization of the population for a total war within a few months after the outbreak of a new conflict.

In a letter to The Times, Sir Auckland suggested submission of a simple questionnaire to all British voters to determine their reaction to his proposal, which received the editorial support of The Times.

Viscount Rothermere's Daily Mail intensified its efforts to obtain replies from its readers to a questionnaire asking: "Are you in favor of obligatory military service or organization of a volunteer service?"

Lord Beaverbrook's Daily Express also continued its campaign for conscription of the nation's economic and man-power resources, citing the statement of Frank Fehr, president of the Baltic exchange—one of the world's greater grain markets—in favor of conscription of men for the army and also for industrial and commercial enterprises.

Mr. Fehr said officials of the Baltic exchange were disposed to see their entire organization placed at the disposition of the government.

Something New In Food

Ginger Bread With Buttermilk Said To Be Fine Combination

The columnist of the Baltimore Sun, writes one of his contemporaries, the other day remarked he had found what he called an unusual food combination recently— buttermilk and ginger bread.

"That is a food combination the origin of which would be hard to determine," says the columnist, "but I know it was a very popular combination constantly indulged in on the eastern shore of Maryland from time immemorial. The habit probably drifted down from Pennsylvania, for in every lower Pennsylvania home it is considered one of the best food combinations there ever was."

"Out in Carroll county no farmer's wife would think of offering you buttermilk without a slice of ginger bread with it—and if ever there was a combination that could charm away the torments of a hot day it is a glass of buttermilk right cold out of the springhouse and a hunk of ginger bread made by the recipe that descended to Maryland housewives from the angels. Try it some time on a hot day after a long, tiring walk."

SELECTED RECIPES

MARMALADE BAVARIAN

1 package Orange Jell-O
1 1/4 cups hot water
1/2 teaspoon salt
1/2 cup heavy cream
1/2 cup orange marmalade
Dissolve Jell-O in hot water. Add salt. Chill until cold and syrupy. Fold in cream, whipped only until thick and shiny, but not stiff. Fold in marmalade. Chill until slightly thickened. Turn into mold. Chill until firm. Unmold. Garnish with whipped cream and additional orange marmalade. Serves six.

CANDIED COTTAGE ROLL

4 lbs. cottage roll
Boiling water
1 tablespoon mustard
Vinegar
Sifted cracker crumbs
Whole cloves
1/2 to 1/3 cup Bee Hive Golden Corn Syrup

Simmer cottage roll in gently boiling water until tender. Cool in the liquid in which it was cooked, then drain. Remove strings. Place cooked cottage roll on rack in roasting pan. Smooth mustard to a paste with vinegar, and spread over fat surface of roll. Cover with sifted cracker crumbs, score in diamonds and centre each diamond with a clove. Pour corn syrup carefully over the surface. Place in a hot oven, 400 degrees F., to re-heat meat and to glaze surface. Baste carefully once or twice during cooking with liquid in pan.

France Gets More Showers

France and other parts of western Europe receive less rain than the eastern United States, but, since the showers are lighter and more frequent, less water is lost by draining than in this country, where more sunny days and harder rains are more common.

Berlin has four thousand five hundred and fifty-three American residents.

Employs Only Men

No Women Have Ever Worked For Brighton Firm

There are no flowers on the desks of directors of the business controlled by A. R. T. Perry, decorators' merchant, in Brighton, England, and the south coast.

Why? Because, though Mr. Perry employs more than a hundred men and boys in his showrooms, girl employees have been banned from the business house of Perry for nearly 70 years—from the first day that his father opened the shop in Duke street, Brighton.

Boys answer the telephone, do all the typing, make the office tea. Men show women customers round. And boys do all the office cleaning—even charwomen fall under the ban.

Mr. Perry won't have it that he is prejudiced against girls. He even admits that they can excel men in business.

For 25 years he has been a leader of the Brighton and Hove Battalion of the Boys' Brigade, and it is his ambition to give every boy he can a chance in life.

As captain, commanding officer or vice-president of the battalion, he believes in the doctrine of "Give boys a chance."

His businesses are so organized that he claims no boy can find himself in a blind-alley job. All have a chance of rising to the top.

"My husband finds in his type of business that he is lucky enough to carry on without women. But he likes to see them in the home," Mrs. Perry says.

And Mr. Perry's employees?

The sales manager at the Duke street branch said with enthusiasm,

"We prefer it this way. We don't in the least miss the feminine touch. We are happier without it."

"A female can be a disturbing influence in business. Without her there is less inclination to waste time. Every one has his own job to do and there is no question of 'Don't do that, dear, let me do it for you!'

"Certainly no flowers on the boss' desk. They'd soon get thrown back if one tried it."

Have Real Problem

Nova Scotia Fishermen Get Very Little For Hard Work

Three Nova Scotia inshore fishermen, after toiling from daybreak to noon, landed 423 pounds of fish.

The Halifax Herald prints the following report of what happened.

For the catch, the fishermen were paid \$3.68.

From the \$3.68 the fishermen had to deduct \$1 for delivery to market, leaving \$2.68 to pay for three men's work, gasoline, bait, and upkeep of boat and gear.

Of the 423-pound catch, 324 pounds were sold to retail customers.

The consumers paid for those 324 pounds of fish a total of \$30.20.

Housewives paid almost ten times the gross earnings of the fishermen.

Whether or not the circumstances in this specific case were exceptional we do not know. But study of prices paid to fishermen and prices paid by the consumer over a period of some weeks shows a very wide gap indeed.

—Maclean's Magazine.

A bottle of water, standing outside a California house in 1931, focused the sun's rays with such intensity that the wooden wall was ignited.

Dentists recommend Wrigley's Gum as an aid to strong, healthy teeth, cleanses them of food particles, massages the gums. Aids digestion, relieves stuffy feeling after meals. Helps keep you healthy! Take some home for the children too—they will love it!

Features Of The Future

New Architecture Will Be Seen At Coming World's Fair

A preview of the style of architecture to be exemplified in the New York World's Fair is provided by the lavish new metropolitan night club, the Riviera. Every interior wall curves on an arc, giving each room an illusion of far greater spaciousness. The main dining room, a huge oval of 6,000 square feet, belies the compact appearance of the building's exterior.

Other "features of the future" are a disappearing 52-ton roof, a receding stage, a revolving stage with colored floor lights, a revolving bandstand for orchestra changes, and sliding glass walls which drop at the touch of a switch and open the huge dining room to the Hudson River's breezes.

Had Right Answer

"James," said the teacher, "come in front of the class and spell 'neighbor'!"—and he did so correctly.

"That's quite right, James!" said the teacher. "Now, Tommy, it's your turn. Please tell me what a neighbor is."

After a pause, "Please, miss," said Tommy, "a neighbor is a woman who borrows things."

The curvature of the earth amounts to seven inches per mile.

American Speaker Believes Greatest Protection of Peace Is the Strength of Britain

"I cannot help but hope and pray that the spirit of the Anglo-Saxons through the centuries will still continue to animate our public policies on this continent," declared Major Norman Allan Imrie, associate editor of the Columbia Dispatch, Columbus, Ohio, concluding an address on "This Befuddled World" at the luncheon of the Canadian Club in the Chateau Laurier at Ottawa.

Major Imrie told of some of his impressions derived from a visit to Europe some months ago. He said: "We ought never to forget the great debt we owe to the old barons at Runnymede who secured the signing of the Magna Charta. Nor those who shook their fists in the face of Charles I. and secured the Petition of Right, those who secured the Bill of Rights from William and Mary, the men who wrote the Declaration of Independence, the fathers who wrote the Constitution of the United States, and the framers of the British North America Act."

War lords had since arisen and jeopardized freedom. But constitutional freedom had been maintained by the English-speaking peoples. He hoped the relations that had existed between the United States and Canada would perpetuate themselves.

If the Great War had been fought, as was said, "to make the world safe for democracy," and for this 10 to 12 millions of men were "butchered, and many millions more were maimed and blinded, then I think that war was one of the colossal and ghastly failures of history," in view of what had since happened.

It was true the Russians had got rid of the Romanoffs and established a Duma, "but how quickly that picture faded."

"We thought we had made 65 million Germans safe for democracy, and sent the Kaiser to buck saw wood. But that picture, too, faded. It was followed by an era of bullies and dictators whose ideology is expressed in their epigram: 'How a minority, becoming a majority, hates the minority.'"

Russia had got rid of folks she didn't want and clamped down a regimented form of government so severe that no man dare criticize except at the risk of persecution or execution.

In Italy there was the same kind of dictatorial government. The country had been faced with disintegration until the advent of Mussolini. An Italian had told him, said Major Imrie: "We were saved from economic disintegration and democratization. We now have no labor troubles and we will stick to what we have got until we get something better."

As regards Germany, political minorities did not exist. "You don't have to be a Nazi, but you can't be anything else." While in Munich, which saw the rise of Hitler, Major Imrie said he witnessed the persecution of the Roman Catholic Church there, and the trespassing on their religious rights.

Jews were being driven into the Ghettos. More than 1,000 Protestant ministers were in concentration camps. "And more than 1,000 newspapers in Germany have been just rubbed out." Those that continued might just as well not exist, so far as any check on the government was concerned.

But there was "an almost fantastic idolatry of this fellow Hitler, mostly among young people." It was something hard to understand on this continent. But Germans had said to him they had been "ground to the very gravel by the Treaty of Versailles, and nobody had seemed to be able to speak for the German nation." Hitler had come along and promised to "restore their national self-respect."

"Give me four years," had been Hitler's motto, and Germans had told Major Imrie: "We did not know we were giving so much, but we gave him a blank cheque. We did not know we were giving up freedom of speech, right of assembly, freedom of the press. We sold our birthright for a mess of pottage. We have no labor troubles. We have fairly good wages and there is no disorder. We gave up some things we want to get back

some day. But we were saved from red ruin."

Major Imrie said that Great Britain had gone through the depression period without surrendering what Germany had. She had said: "We would sooner go on short rations for a while than gorge at the table of a dictator." Minorities in Britain had sacred rights against possible despotism of majorities.

The speaker said he had criticized Britain's dole system. "But I never realized we in the United States would soon be paying a dole on a scale that was tremendous." He said he had asked Premier Chamberlain whether they were justified in the middle western States in a feeling of pessimism on the future of Europe. He had asked him was democracy on the way out in Europe.

Mr. Chamberlain had replied: "I don't think you need be too pessimistic. There is a lot of inflammable material lying around. But I think with the exercise of diplomatic skill, and patience, we will postpone a European collision."

The answer of the British to Mussolini had been to launch their huge armament scheme of \$3,500,000,000.

The speaker said he thought the greatest protection of the peace of Europe today was the strength of Britain.

Personally, he was of the opinion the United States still stood "for the reign of law, based on the consent of the governed, and sustained by the organized opinion of mankind." He thought perhaps there was a slight trend towards centralization of power in the federal government, and the obliteration of differences between executive and judicial functions.

Western Sheep

Eastern Farmer Can Tell You All About Them

Western Canada is where men are men and where even the sheep are well-behaved, according to Harold Arnold of Pickering, Ont., farms, and he should know.

Arnold bought 2,400 lambs from Saskatchewan ranches and they reached his farm early in the morning—"baa-a-a-ing" so quietly the neighborhood was not stirred. And there's a reason for their politeness.

"Western sheep," Arnold said, "have a natural instinct not to make any noise. They fear the coyote and know that any noise will make their presence known to the killer."

The westerners came east without a casualty but one of the little fellows was a bit wobbly around the knees. The cure—brandy.

"He got tight and stayed tight 24 hours," Arnold said. "He didn't move all day but he's all right now."

There are 24 "black sheep" in the flock, but they aren't the proverbial kind. They are karakuls, used by westerners for counting. With every 100 sheep in a shipment a karakul is put in and they serve also to keep the wolves away. The wolves spot the black dots among the large flocks and think they are men.

Will Make Christmas Puddings

Princess Elizabeth Preparing To Bake Some For Her Friends

Princess Elizabeth is preparing to bake Christmas puddings herself as gifts for some of her little friends.

Queen Elizabeth gave her an old family recipe which she herself had used as a young girl. The Princess wrote to the Buckingham Palace chef, giving him a list of ingredients she wished to have at her disposal when she returned from Balmoral, Scotland.

When in London the 12-year-old Princess passes one day a week in the palace kitchens under the instructions of the chef.

Drifted Long Distance

Three bottles containing records of their launching in American waters have been picked up on the Scottish and Irish coasts, the Hydrographic Office of the navy reports. They had drifted, respectively, about 4,500, 3,600 and 3,300 miles. One had been put overboard north of the West Indies and the two others off the Carolina coast.

THE PIONEER, DIDSBURY, ALTA.

Taking Pleasure Jaunt

Former British Columbia Newspaper Man Sailing Yawl Around World

Favored by a spanking tailwind, Ernest J. Moy, formerly of British Columbia, sailed his 58-foot "luxury" yawl, the Dione, southward through the Gulf of Mexico waters on the first leg of an 80,000-mile story book pleasure jaunt around the world.

Aboard with Mr. Moy was his young wife, dressed in jersey and slacks and with a boy scout knife strapped to her waist, and two Tampa seamen, Charles Schetter, 34, and William Hughes, 22.

The craft's clearance papers read, "London, via Singapore and way points," and Mr. Moy said, "When we get there doesn't matter."

In fact the happy skipper, who has but one arm, said the jaunt may take five or even ten years. He said before sailing that his lifetime ambition had been to circle the globe in his own ship.

Mr. Moy, who said he at one time owned several British Columbia newspapers and is now retired, purchased his yawl in New Haven, Conn., last year and with his wife sailed it down the Atlantic coast and up the Gulf of Tampa. His home is in Seattle, Wash.

He spent six months provisioning and preparing the craft for the long trip now under way, and included in equipment rifles, side arms and a supply of tear gas, to be used, he said, "just in case."

Also aboard were hundreds of small articles such as scissors, knives, safety pins, mirrors and colored ribbons to be used in trading with natives on the many islands en route.

Snake Venom

May Be Used As Treatment To Save Eyesight

The venom of snakes most deadly to man soon may prove one of the most effective treatments to save eyesight, a South American physician said.

The deadly fluid of rattlesnakes, water moccasons, cobras and other poisonous reptiles already has been successful in treatment of some eye disorders, Dr. M. E. Alvaro of Sao Paulo, Brazil, told the American Academy of Ophthalmology and Otolaryngology.

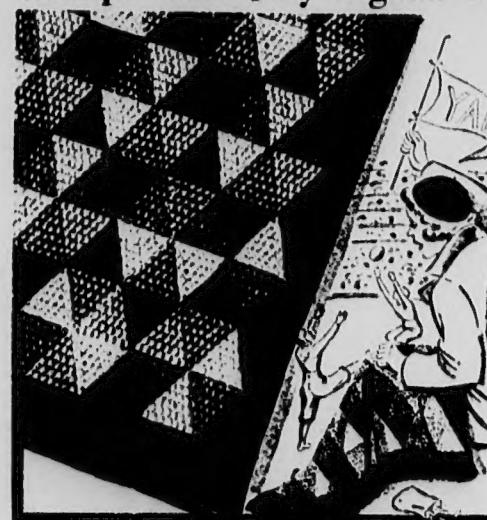

Such conditions as inflammation of the tiny arteries of the eye, blood clots in the eye veins, and spasms of the blood vessels have been treated with the venom, previously rendered less active with heat or chemicals.

The action of these toxic venoms is still not clear, Dr. Alvaro said. In some cases it acts as a dissolving solution in the blood to clear away blood clots, while in other cases it coagulates the blood and forms clots.

Something To Know

Col. James A. Moss, retired, president general of the United States Flag Association, ruled, in answer to a Brooklyn woman's inquiry made originally of Mayor LaGuardia, that it is all right not to stand during a rendition of the United States National Anthem if you are in bed, eating, telephoning, playing cards or taking a bath.

Forthcoming British Naval Program for 1939 Reported To Be On a Large Scale

International Plowing Match

Lord Tweedsmuir Shakes Hands With Young Competitor

Grizzled farmers on chugging tractors or behind straining teams of big horses gave Lord Tweedsmuir an "agricultural" welcome to the international plowing match, blue-ribbon event of the farm world that had attracted 600 competitors and 125,000 spectators to the rich farmland of the central Ontario Minesing flats.

Denim-clad veterans of the age-old plow turned acre upon acre as the Governor-General tramped rain-dampened ground examining the neat furrows, poking a crown with his cane or congratulating a smiling competitor.

Speaking from the platform of a sound-broadcasting truck, the Governor-General said that coming from England and the threats of war to Canada and peace, "this plowing match is a good omen that we shall be allowed to get on with our proper business."

He mentioned briefly the European crisis that reached its peak during his English visit. He was never more impressed, he said, by the coolness of the British, their fortitude and common sense.

Lord Tweedsmuir said it was the first time he ever had seen tractor plowing. He paused during his long walk to shake hands with pretty Emma Gordon, 15-year-old Harriston competitor.

"Pleased to have met you," said the trim plowwoman, in brown riding breeches and a red jacket. She was wreathed in smiles as she bent over in the seat of her big red tractor to shake the hand of the Governor-General.

Grain Standards

New Export Standard For Garnet Wheat Is Decided

Present definitions of commercial wheat grades were left intact by decision of the western committee on grain standards.

It was decided to set up new export standards for Nos. 1, 2 and 3 C.W. Garnet wheat as well as for Nos. 1, 2 and 3 C.W. Durum.

The committee recommended further study be made to obtain more information on the peculiar condition encountered in this year's crop in which appreciable quantities of wheat have been degraded for improperly ripened kernels. Bronzy colored kernels were found in wheat susceptible to stem or leaf rust, the committee reported.

Gaelic, the language of the Scottish Highlanders, is spoken by the Maoris of New Zealand, according to Dr. C. L. Bennet, professor of English at Dalhousie University, Halifax, N.S., who has returned from Auckland.

British naval expansion plans for 1939 include at least one 35,000-ton battleship, several cruisers, two flotillas of destroyers and numerous motor torpedo boats in addition to a big program of naval aviation development, it was reported in well-informed quarters in London.

It was believed not to be outside the range of possibility that authorization would be asked for three battleships instead of one.

As for naval aviation, informants said construction was planned on a vastly greater scale, coincident with the swinging into mass production levels of planes being built for the Royal Air Force.

Provision for even one new battleship would bring to eight the total of 35,000-ton ships now being built or which have been authorized.

An admiralty spokesman said that 167 ships, totalling 680,000 tons, were being built or were authorized, as follows:

Building, 562,000 tons: Five battleships, six aircraft carriers, 19 cruisers, 35 destroyers, 19 submarines, five escort vessels, 18 motor torpedo boats, 17 miscellaneous. Total, 124.

Authorized but not contracted for, 118,000 tons: Two battleships, four cruisers, 30 boom defence ships, seven miscellaneous. Total, 43.

Artificial Wool

New Process For Manufacturing Product From Casein

A new process for the manufacture of artificial wool from casein has been invented by two members of the United States Department of Agriculture. The process is similar to that used in making viscose rayon from cellulose. It differs from the Italian method of making Lanital from casein. The fibre resulting from the American process closely resembles the best quality of merino wool. The inventors believe that the fibre can be manufactured to be sold at a price on par with that of rayon, that is about 50 cents per pound.

The process of manufacture is so similar to that of rayon that rayon plants can easily make synthetic wool by using casein instead of cellulose and employing different chemicals. The United States already produces some 35 million pounds of casein every year, which is used chiefly as a paper coating in the manufacture of plastic articles. There is an almost unlimited supply of skim milk available and it is possible to produce as much as 1,000 million pounds of casein a year. Most of the skim milk is now used as cattle feed and it is not yet certain whether it would be of more value as casein. Experts say that production of milk for casein alone would not be profitable. International News Service.

A Satisfying Experience

Walking From Nightmare And Finding Everything Is All Right

One of the major satisfactions of life is waking up from a nightmare. The sun is shining in the window, or is about to do so. From downstairs there drifts the sweet scent of coffee, followed presently by that of sizzling bacon. It becomes more and more certain to us, as our senses return, that we did not fall off that precipice, were not executed by that firing squad, were not caught by that lion, did not really find ourselves penniless and inadequately clothed in the main waiting room of the Grand Central station. The airplane has not caught fire, we are not in jail, and we are not going to die—not yet, anyhow. Poe tried to take the zest out of this experience with his story of the young man who dreamed that he had the plague, woke up in a grateful dither to the liveliness of a Florentine morning, and then found he really did have it. But this does not commonly happen. New York Times.

A vessel is said to be "under weigh" from the moment her anchor is "weighed" or lifted from the ground, even though she may not be "under way."

Use your head and, in proportion you will get ahead.

By H. G. L. STRANGE

Director "Crop Testing Plan"

"What do you think of this
wheat?" asked an elevator agent."That's a lovely-looking sample,"
I said. "Plump, of a fine deep red
colour. Why, that's almost show
wheat.""Sure it is," said the agent, "and
it's also a good joke on you."

"Why?" I asked.

"Well, that comes from a field
that you classed as no good last
summer. You said it was Little
Club wheat, and that the quality
was terrible. Now you say it's fine.""Can you get me about a pound
of wheat of another variety from the
same farm?" I asked."Sure I can," said the agent.
"I can get you some Thatcher, but
what will that prove?"

"Let's wait and see," I said.

The pound of Thatcher arrived
this with a pound of the Little Club
was made into loaves of bread by
the Dominion Cereal Laboratory.The loaf made from the Thatcher
wheat is tall and light, of a nice
creamy colour, and has an appetizing
appearance. The loaf made from
the Little Club is about half as tall
only, is dense and heavy-looking,
the crumb looks unappetizing and it
is as yellow as a dandelion."Well," said the agent, "It looks
as though wheat varieties are just
like people. You can't tell their
quality or worth by the looks of
them!"Following factors have tended to
raise price: Better political situation
aids European wheat trade -- Winter
wheat seedling backward in Rumania --
Rains still lacking in Victoria
Australia -- Russian wheat export
surplus believed small -- North
western India continues dry, seedling
conditions unfavourable -- Estimate
of last Argentine corn crop reduced
to 174 million.Following factors have tended to
lower price: Large arrivals of wheat
in Europe -- Rumania and U.S.A.
continue pressing subsidized wheat
for export -- World has largest rye
crop in recent years -- Rains relieve
dryness in Balkans -- Large exports
of carobs (beans) from Cyprus to
Egypt -- Argentine corn being press-
ed on Liverpool market.**Don't Overlook Fish.**Our Canadian Fish Have Finest
Flavor Says Government
ExpertMiss Hazel J. Freeman, Dominion
Government cookery expert, says:
"The clear, cold waters of our
northern lakes and rivers, the salty
tang of our two great oceans make
Canadian fish exceptionally fine in
flavour.""The secret in cooking fish," says
Miss Freeman, "lies in having the
heat--whether electric gas, kerosene
or coal stove--hot enough to broil
or bake them quickly and above
all not too long. Of course, the
timing is up to the cook, and it
is this very timing that marks the
difference between having fish that
is cooked to perfection, or stewed**Notes From the West**Mr. and Mrs. J. Bagshaw visited

Westcott Notes

The Westcott W.I. met with Mrs. Ray for their October meeting. Mrs. John Spillman had charge of the topic and dealt with different phases of Adult Education. Bulbs were distributed for a bulb contest to be held in January. Final plans were made for the bazaar which was held on Friday last. Miss Siegel gave a splendid program of readings and stories, interspersed with musical numbers by local talent and by Mrs. Colwell of Cremona. Anyone who did not hear Miss Siegel missed a wonderful treat. The bedspread was won by Mr. Anderson, care of Wilfred Rennie. The bazaar was the usual success, the articles being ably auctioned by Mr. John Burnett. The November meeting will be held at the home of Mrs. Wilfred Rennie.

Burnside Notes

Mrs. George Hergert, who had been visiting her daughter, Mrs. Walter McCulloch, and other members of her family in this district returned home to Calgary on Saturday.

Mr. Adam Shumaker, who had spent the summer in this district returned on Tuesday to Calgary.

Born in Calgary on Monday, Oct. 25th Mr. to and Mrs. Cecil Cipperley a son.

Mrs. N. Eckel and Robert spent Friday in Calgary.

We are glad to hear that Mr. Jim McCulloch, who has been very ill in Calgary is much improved and will soon be able to return home.

Mr. Gus Bittner spent Tuesday in Calgary.

Mr. Ralph Long spent Sunday with Mr. Albert Spragg.

Mr. and Mrs. Bob McCulloch moved last week from the Sundre oil well where he has been employed to Pincher Creek.

Miss S. Zook returned on Sunday after spending three months near Didsbury.

We are sorry to hear that Mrs. Otto Bittner is under the doctor's care and wish her a speedy recovery.

A very pleasant evening was spent at the Institute whist drive on Friday. Prizes were won by Miss Edna Simpson of Allingham and Mr. Lawrence Hunter while the consolations went to Mrs. A. Jenkins and Mr. Howard Lyons.

Mr. and Mrs. Geo Burns, Mrs. Ed Stiles and Mrs. N. Eckel spent Wednesday in Acme.

Melvin Notes.

Mrs. Cowitz entertained on Tuesday about 40 guests at a shower in honor of Miss Ivy Spencer, who received many beautiful and useful gifts.

Dance at Melvin November 18th. Red Deer Music (Bones).

Wedding bells are ringing double in our community.

Mr. and Mrs. Cowitz, Mr. and Mrs. Cuffling were Sunday guests of Mr. and Mrs. A. Krebs.

Miss Lila Weigner spent last week with Mrs. Eddie Krebs.

Mr. Orvin Swingle and Ray Murihead left on Thursday for B.C.

We are sorry to report that Ross Youngs has been ill for the past 10 days with quinsy. We hope that he will soon be around again.

In order to ensure better co-operation between the various communities, following are the season's at Melvin:

Friday, November 18th.
Wednesday, November 30th.
Friday, December 16th.
New Year's Dance
Friday, December 30th.

ANY DAY A FISH DAY

**YOU NEED TWO
NEWSPAPERS**

You enjoy your weekly. It gives you news of your own friends and neighbors. It deals intimately with the problems of your own district and works assiduously for its welfare. As your home newspaper it has first claim on your interest and your loyalty—and rightly so.

But, while your weekly gives you a resume of the news beyond your own district and, within its scope, deals capably with world events, it cannot possibly keep you in touch with every matter of importance. Frankly it makes no claims to do so.

To have an intelligent appreciation of what is happening in the world today you must read a daily newspaper. A good daily gives you all the news. No matter what your chief interest may be, world events, national conditions, sports or markets, it covers them all. And more than news. Special articles, features of particular interest to women and pages for the children make a daily newspaper welcome in every home.

By all means read your weekly. It deserves your interest and support. But, remember, you and your family need a daily newspaper, too.

WORLD HAPPENINGS BRIEFLY TOLD

The Smithsonian Institution announced invention of a new instrument which will measure the heat of a star billions of miles away.

More than half of the 4,000 United States volunteers who took up arms in the Spanish civil war apparently have been lost in action.

Red Cross officials estimated they would require \$50,000 for the work of rehabilitating families who lost their homes in forest fires in the Fort Frances, Ont., area.

The New Zealand government is sending to England 30 airmen for training, to return as pilots in the 30 Vickers aircraft recently purchased in England.

Members of the British Legion, ready to sail for Czechoslovakia to police the proposed plebiscites in mixed population areas, were advised their services would not be required.

A meteor, throwing off a stream of sparks and followed by a trail of flame, is reported to have fallen southwest of Ottawa. Efforts to locate it were unsuccessful.

An extensive campaign against return of any part of Windhoek to Germany is planned by a "Southwest African League" now being formed there.

Lord Stanley, dominions secretary and heir to the Earl of Derby, who died recently at a London clinic, visited Canada and opened the Canadian National Exhibition at Toronto this year.

Recruits continue to enlist in the regular army in increased numbers despite the peaceful solution of the European crisis, the War Office announced. In a recent week 949 were enrolled, 528 more than in the corresponding week of 1937.

To Meet Emergencies

Proposal For British Test Mobilization To Be Held Annually

A plan for an annual test of mobilization of Britain's civilian population to meet any emergency of the future has been placed before the committee of imperial defence by Calgary-born Brig.-Gen. A. C. Critchley.

The scheme is based on precautionary measures evolved by the sports promoter 18 months ago and applied to his vast enterprises during the recent crisis.

At that time a large number of his employees were promptly released for duties with the Territorials, the balloon barrage, and the air raids precautions organization, but pre-arranged programs were carried out without a hitch by the immediate introduction of a shadow plan.

General Critchley now proposed that the civilian population should similarly be organized and called up for a test drill next summer. He suggests a trial evacuation of congested areas, the manning of all branches of the defence service, and mobilization on the basis of a national register with a minimum of disturbance in industry.

Poultry For British Guiana

B.C. Poultry Breeders Supply Foundation Stock At Good Prices

So satisfactory has a shipment of record-of-performance poultry from Canada to British Guiana made last year proven to be that the Department of Agriculture of that country recently placed another order through the Dominion Department of Agriculture. This recent order is for eight white leghorn pullets and two males and eight Rhode Island Red pullets and two males, all of record-of-performance breeding stock.

The birds are now en route to British Guiana. The shipment was purchased from two British Columbia poultry breeders. The satisfactory price of \$15 each was paid for the pullets and \$25 each for the males, f.o.b. breeders' farms. These birds, like last year's shipment of Barred Plymouth Rocks, are to be used for foundation breeding stock in British Guiana, where poultry raising is becoming an increasingly important industry.

Beef and cabbage cooked together comprise the English dish of "bubble and squeak."

Australia's first factory for making Axminster carpets is being built.

For Healing Wounds

New Oxygen Treatment Is Shown American College Of Surgeons

Oxygen loosely locked up in grains of white powder was reported as a new treatment for healing wounds rapidly.

The process was shown to the American College of Surgeons at a clinic at Presbyterian Hospital by Dr. Frank L. Meleny.

Oxygen, it was explained, is supposed to owe its healing power in wounds to its ability to drive out the kind of bacteria which live without oxygen. They are known as "anaerobes" and include some of the serious sources of infections.

The obstacle to using oxygen has been its quick evaporation from the wound. The powder is a new product of chemistry, zinc peroxide.

It is dissolved in liquid and flushed through a wound. The heavy zinc particles spread through the injured tissues and lodge there. Each grain of the zinc thereupon becomes a slow fountain of oxygen. It keeps on giving off oxygen for several hours.

Books as part of the cure after an operation were urged by Gordon R. Kamman, M.D., of the University of Minnesota.

The right books, he said, will help in recovery, and the wrong ones will make the patient worse.

"Too few people," he said, "are aware of the possibilities of reading in the treatment of medical, surgical and psychoneurotic patients. The individual must be regarded as a whole and we no longer cling to the dualistic concept of men in which the mind is considered separately from the body.

To allow outsiders to supply patients with reading material unsupervised is as bad as allowing them to bring the patient his diet or medicine."

The right books, Dr. Kamman described as those which take the patient's mind off himself. The "so-called tired business man," he said, is a tough subject for books because as a rule this man has been so busy making money he never has had time for reading and is not interested.

A Suggestion Made

A Little Discussion Over The Royal Visit To Toronto

Neither Toronto nor any other city is entitled to claim a prominent place in a three-week visit of the King and Queen to Canada. It goes without saying that Toronto people will be proud and delighted to have the royal visitors as guests for as long as it is convenient for them to stay, but when a communication to that effect has been forwarded to those in charge of the Canadian visit, that is as far as Toronto's importunities should go.

The suggestion which has emanated from the Board of Control that Mayor Day should write to Lord Tweedsmuir stressing Toronto's claim to a prominent place in the royal plans is the type of thing which has earned for this city the opprobrious sobriquet of Hogtown. Without any thought as to the national character of the visit, it is proposed that a letter in this sense should be forwarded to Ottawa "so that a lengthy visit to this city would definitely form part of Their Majesties' Canadian itinerary."—Toronto Telegram.

Have Become Important

Skins Of Rats And Mice Are Of Value To Japan

Rats and mice are ordinarily thought of in Japan, as elsewhere, as unmitigated pests.

But in the present period, when substitute materials are being sought on every side, they have been included in the general scheme of "commodity mobilization."

Their skins, it is asserted, can be tanned and used as material for knapsacks, brief cases, vests, lining of coats and other articles which are usually made out of more valuable materials.

The market for dead cats and dogs is rising for the same reason, the value of their skins.

The prices of the various animals are reported as follows: Five to seven yen (six to eight shillings) for a dog, one yen for a cat, ten sen for a rat, and five sen for a mouse.—London Observer.

According to one London magistrate, "Boxing the ears is the most dangerous way of hitting anyone."

GOOD NEWS FOR LARGER WOMEN

By Anne Adams

Turn your eyes towards winter and you'll discover many a need for this flattering frock—especially designed for the larger figure up to size 50. Don't you like the scalloped neckline? It lends such dainty distinction to an otherwise simple silhouette! The pockets and the ruffle edging are other chic details. As for the panels at front and back, they slenderize to an almost magical extent—because they flow the full length of the dress. Indeed, you can't find more becoming lines or greater comfort in any style! When you consider the making, remember that there's a Sewing Instructor to help you! Choose charmeurs, percales and tie silks. Send for this pattern today. Pattern 4920 is available in women's sizes 36 to 50. Size 36 takes 4 1/4 yards 36-inch fabric and 1 1/4 yards ruffling.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

U.S. Defences

Mass Production Of War Equipment Is Indicated

President Roosevelt said he was making an entirely new study of the United States' national defence needs and that until it was completed he could not estimate next year's budget.

The president told a press conference new technical developments in national defence measures required a complete study of defensive requirements.

He said the reason for the reassessment of these needs began to take shape about a year ago because of information coming in in connection with world events. He said the question was forced to a head in the past month. In response to a question he said the new information was of a technical rather than a political nature.

One of the things being studied, he said, was that of mass production of war equipment, including airplanes, power and other items. He said the production question was something new and intimated one phase to be studied was standardization of plane production, which some countries already have adopted.

New Use For Silver

Silver-Coated Food Containers A Possibility Of The Future

Consumers some day may be able to buy their soup and succotash in silver instead of tin cans, if experiments revealed at the International Electrochemical Society meeting prove practical. Silver-coated food containers were just one of the possibilities suggested for the metal. Dr. Lawrence Addicks of Bel Air, Md., told the electrochemists that when the government stops supporting the market by buying more silver than it needs, scientists are going to have to take up the slack with industrial uses.

Amusing For Tourists

Clever Bargainers In Mexican Market Provide Plenty Of Comedy

Mexico knows how to please both its own people and travellers, according to the American Express Travel Agency. Perhaps the most interesting evidence of this is the Toluca Market, which the tour parties visit on Friday, its great day. The market is divided into two more or less distinct parts. One supplies the home needs of the Indians by specializing in cheap dress goods, shoes, socks, knick-knacks, jewelry, toys; its merchandise is piled on the sidewalks, with cotton awning rigged up to protect seller and buyer from the sun. Low prices are its keynote, its merchants even advertising their wares by calling out, "Cheap!"

The other half of the market appeals to visitors. Its merchandise consists of hand-woven baskets, of native sarapes and embroidered goods. Bargaining is its one and only rule. If the seller gets the first price he asks, he is more than surprised, even though he may not show it. If he has to dicker and argue for half an hour with a customer, he accepts such tactics as an inevitable part of his business.

A good bargainer is looked up to by the merchants of the Toluca Market. If he is especially good in his haggling, he may draw a large admiring audience, which listens with approval to each of his sallies and attempts to lower prices.

Toluca's main prizes are its sarapes or hand-woven Indian blankets. The best are expressions of the artistic nature of the weaver, made in his own designs. Sometimes, however, the whole family works on the same sarape, each contributing his own ideas of color and size.

Heavy Investments

Large Sum Of United States Money Invested In Canada

United States investments in Canada amount to \$3,630,000,000—more than one-third of the total United States investments abroad and by far the largest block of the total, according to a survey by the United States Chamber of Commerce.

The complete statistics for 1937 show that in addition to the Canadian investment, United States investors had placed \$2,562,000,000 in South America, \$2,372,000,000 in Europe and more than \$890,000,000 in the West Indies.

The survey also disclosed that expenditures of Canadian travellers in the United States account for two-thirds of the total travel outlays by foreigners in the United States, while United States travellers in Canada spend here half of the total travel outlay of the United States.

The Last Word

Newspaper Writer Slipped Something Over The Publisher

Christopher Morley, the American author, at one time conducted a column on the Philadelphia Public Ledger, then owned by the late Cyrus H. K. Curtis, also publisher of the Saturday Evening Post.

Curtis was piqued at something which Morley wrote and gave him his notice. In the last column he was to publish in the Ledger, Morley inserted an apparently meaningless line: Taming of the Shrew, Act IV, Scene I, Line 36.

Readers chuckled when they looked up the reference, for it read: "A cold world, Curtis, in every office but thine; and therefore fire!"—Winnipeg Tribune.

Taking No Chances

Woman In England Thought Gas Mask Would Prove Costly

An elderly housewife, it has been reported in London, England, the other day spurned an offer of a gas mask. She told the air warden: "I don't want to have anything to do with those things; they cost too much to run."

Assured that the gas mask would cost her nothing, the suspicious housewife retorted: "That's what the man who sold me my gas stove said."

Mercury must be present in an alloy before it can be called an amalgam.

The Olympic Games were revived in Athens in 1906.

Engines Of War

Best Way To Combat Air Raids Is To Meet Invaders In The Air

A Great War veteran who has scrutinized the "terrible engines of war" finds them neither as fearsome nor as awe-inspiring as one might expect.

Col. E. J. C. Schmidlin, director of engineering services, department of national defence, told members of the Engineering Institute of Canada at Toronto that in spite of advances in design and fire-power of modern military weapons, conditions in any future war would be no worse than those of 1914-18.

Each advance in weapons of offense, he said, has been offset by corresponding improvements in defensive armament.

Best defence against air raids, he declared, was to meet the invaders in the air before they reached their objective. A fleet of fast pursuit ships could cope successfully with the attacking ships, he asserted.

If this method had been followed in the Spanish war he doubted if the insurgent airmen would have caused the damage they did.

Tooth Decay

Physicians Claim To Have Isolated Germ That Causes Trouble

Isolation of the germ that causes tooth decay was reported by Dr. P. H. Belding, dentist, and his brother, Lieut. L. J. Belding, physician attached to the naval academy at Annapolis, Md.

The germ is nurtured, they said, in foods made from cereals, mostly wheat, corn and oats. The fermentation of these foods causes acid in the saliva which attacks the tooth enamel. The germ can be eliminated by processing the cereal, they said.

They made their report to the First District Dental Society of the State of New York.

They believed that their discovery might open the way for a new study of the dietary diseases, such as peptic ulcer, gall stones, arthritis, appendicitis, pernicious anaemia and rheumatism.

One way of destroying the germ, they said, was by fermentation or alkalization of the cereal before consumption.

Trains And Planes

For Many People Locomotive Will Never Lose Its Glamor

The other day, says B. H. in the Victoria Times, I kept abreast of a heavy grain train down the Fraser Canyon for miles and miles, so close that I could see the tobacco glow in the bowl of the engineer's pipe, and I found that I wished then, as intensely as when I was seven years old, that I was a locomotive engineer, with a giant of steam under me. In time, I dare say, the airplane may acquire a glamor like that, but not for many years. We may use it but we shall never love it as we love a train. An airplane is a new thing, an upstart. A train was our friend in boyhood, and the sound of its whistle will always remain in our hearts.

It is said that one of the reasons given by Louis XIV. for the building of the great palace at Versailles was that it would provide employment for 30,000 workmen over many years.

An excellent lubricant for squeaking doors and other parts of a car is a common wax crayon.

POOR MAN'S GOLD

Courtney Ryley Cooper

• Courtney Ryley Cooper.
WNU Service.

CHAPTER VI.—Continued

Hammond began to file the ragged edge of a long-handled shovel.

Don't you think it's up to us to get as much gold out of that creek placer as we can? We'll have to be hiring men soon."

The older man shot him a quick glance.

"That's the fourth or fifth time you've brought that up," he said.

"Well?" asked Hammond. " Didn't we talk it over the other night?"

"We didn't come to any decision."

"I did."

"We Didn't Come to Any Decision."

"That doesn't make two of us." A certain asperity had grown up between the two; looking back,

TAKE THE LEAD OUT OF YOUR LEGS

Get Oxygen in Your Blood and You'll Get the Pep that Sends You Boundin' Up the Stairs

People who smother to death because oxygen has been completely cut off from them, just as surely you are smothering if your blood lacks red corpuscles. Red corpuscles are your oxygen-carriers. They carry the oxygen you breathe to every part of your system, then return to your lungs to take in more oxygen. Your kidneys, liver, stomach and bowels slow down. Your skin gets pale, flabby, often pimply. Your nerves may become jittery—you tire quickly—feel depressed.

What you need is Dr. Williams Pink Pills. These world-famous pills help make more and better red corpuscles. They increase the oxygen-carrying power of your blood. Get Dr. Williams Pink Pills today at your druggist. See for yourself how quickly this time-proven blood-builder will help give you back your pep.

Copy 1938, G.T. Fulford Co., Ltd.

Hammond felt that McKenzie Joe's nature had become steadily sourer ever since the first arrival of Timmy Moon's airplane and its passengers. Jack had resented that, as though it were an implied insult to the girl he loved.

"Look here, Joe. We've got to get our money out of this discovery. We can't stay here forever."

"Seems to me," McKenzie Joe said, as he looked out over the valley, "when we found this place, we both figured it was where we were going to settle down—that we had a life job."

"We're not going to have a year's job, if we don't find that older bedrock. That Loon creek placer won't be enough for us."

"It's enough for me right now," the older man said. "I ain't ever seen that much money before."

Hammond bent over the shovel blade.

"Our ideas are different there."

"You mean, you've let somebody change 'em for you?"

Hammond threw down the shovel; it clattered on the wooden floor.

"I'm getting tired of that. If you've got anything to say about Kay Joyce, come out and say it."

The other man glanced at him over his shoulder.

"Did I mention any names?" he asked quietly and moved away toward the upper diggings, a new test shaft; somewhat distant from camp and rather deep in the forest, by which they sought the bedrock. Hammond did not follow.

Instead, with the shovel over his shoulder, he headed for the placer workings along the creek. It was a rejuvenated camp through which he moved. A roar sounded from the lake and Timmy Moon's airplane took off for Wrangell. From far away came the sound of hammers over at Around the World Annie's, on the Alaskan side; a tiny town had begun there; she called it Whoopee. As Hammond walked on, he passed a squat Siwash squaw, gleaming in a new shawl of wildly checkered design, an importation by air.

Then he became aware that someone was calling him. It was Jeanne Towers, waving excitedly from the doorway of her cabin store.

"I've almost sold out!" she exclaimed, as he approached. "I'm going to send in another order tomorrow. Larry Baine, he's the one with the all-metal Junkers, is going to bring me back a whole list of stuff from Fourcross."

"That's the way a business grows," Hammond bantered. "Two hundred dollars for a claim, doubled all in a couple of weeks."

Jeanne laughed, tipping her homemade gold scales with a toying finger.

"Well, nearly doubled. I hope I do it again."

"And a dozen times after that. Then I'll know where to borrow if the gold-mining business plays out!"

He went on then, at last to reach Loon creek. Kay was not yet there; it was still breakfast time in most of the camp. But Bruce Kenning was moving along the stream, toward one of his claims a quarter mile beyond. A few hundred yards up the stream, where the raw-boned Olson scooped the earth by great shovelfuls into his sluice, was Mrs. Joyce. Hammond saw her there often; now and then he had found Olson sitting on the veranda of the Joyce cottage, talking of wanderings in many lands in his search for gold, while Mrs. Joyce gave far more than her usual monosyllabic rejoinders. There was something about the man which seemed to fascinate her. Suddenly he ceased his musings. Bruce Kenning had come beside him.

"How's the work going with McKenzie Joe?" he asked quietly.

Hammond shrugged his shoulders. "I haven't been able to get anywhere. He still wants to put down one thing at a time and give the rest of his life to it."

Kenning frowned.

"You can't have that. I'm convinced that the old river bed lies over toward the British Columbia hills," he chuckled. "I wish it were the other way around—all my claims are in the other direction."

Hammond grinned. "Well, you can't say I didn't tell you."

"Oh, you're talking about that stuff I bought from Jeanne Towers. I've added to that a great deal—on the chance that somebody around here would want it. But everybody's looking the other way. Just as well, I'm obligated to turn over some

This outstanding triumph is proof of quality. Twelve first prizes in twelve classes, in this year's Baby Shows at the Toronto and Ottawa Exhibitions, were won by babies fed on 'Crown Brand' Corn Syrup.

What better evidence can there be of the confidence which Canadian mothers and their physicians have in the purity and quality of 'Crown Brand.'

A delicious table syrup, 'Crown Brand' is a treat for the whole family.

Tell the boys that pictures of famous hockey stars can still be obtained for 'Crown Brand' Corn Syrup labels.

CROWN BRAND CORN SYRUP
THE FAMOUS ENERGY FOOD
The CANADA STARCH COMPANY Limited

worthless claims to an English syndicate."

"That's beyond me."

"Something I took over out of what was left when Joyce died. I guess the house is crooked. They say frankly they probably won't develop the property. They just want something cheap in a live mining camp."

"A stock-selling scheme, probably. I haven't much doubt about it. Be glad to have the thing over."

"So would I," Hammond felt he could share Kenning's repugnance. He was fired these days with the thought of new gold, clean money. The eagerness had been mounting ever since that night when Kay had told him her decision. To get gold for Kay—his hands clawed for gold, his mind was centred upon little else.

"How deep do you think we'll have to go to reach that old bedrock?"

"A lot deeper than you'd imagine—ninety to a hundred and twenty feet. From my study of the strata, I can't see any other answer."

Hammond whistled.

"That means a lot of work."

"You bet it means work and men. And a concentrated campaign. Any other method will keep you here for the next fifty years. You've got to spend money to make money in mining."

"That's what I've been trying to tell McKenzie Joe. But he—"

There he halted. Kay was coming down the trail. Bruce Kenning called good morning and went up the stream. Hours later, with Kay and Hammond watching intently, the workmen began a clean-up of the sluice box on the Joyce claim. It only revealed the usual flour gold, indications of something more to come, but as yet, nothing worth saving.

"Neither this flume nor the sluice is long enough," one of the workers complained. "Me 'n' Jim waste an awful lot of time just standin' around, for fear of shovelin' in too much gravel."

"Then build 'em up now, while you're dried out for the clean-up," Hammond said. "I'm going past the sawmill. I'll tell 'em to send some lumber."

"And nails," called Kay.

"I'll get them."

Hammond left the stream, with its lines of eager workers. At the sawmill he gave the lumber order, then turned for Jeanne's to get the nails. She met him, some fifty yards away, returning from the delivery of a batch of darning.

"Haven't sold all those nails?" he asked.

"I think there are some left. There's been a run on them this morning. Everybody in camp wants nails—or glass."

They reached the store and she lifted the peg from the hasp—few persons in Sapphire Lake even bothered to close their doors. Then

pushing the door open, she walked within the store, suddenly to gasp and to hurry around the end of the rough counter.

The crudely built money drawer stood open. The girl wavered, staring at it, her hands half-raised, her jaw sagging. Then she said, in a queerly dulled voice:

"Somebody's been in the store!"

"Had you left your money here?"

Hammond asked sharply.

"Yes—all of it. I—I—thought—nobody ever bothers to lock up—"

Hammond stared about him. It seemed inconceivable that crime should have entered this far-away place; Sergeant Terry's main work was growing a garden. Beside him, Jeanne Towers continued to stare blankly; it was as if they sought an explanation of the impossible, the supernatural.

"But who would want to steal my money?" she asked dazedly. "They took everything; the bills, and my nuggets and a bottle of gold dust—."

Hammond did not answer. The door had begun to swing shut; the faint breeze therefrom was sufficient to lift a bit of paper, hitherto unnoticed, and whisk it to the floor. Jack moved for it, but the girl, with swift intuition, sped before him. She grasped it, turning it in her hand. Then, with a spasmodic movement, she crumpled it in a tightly clenched fist.

"It's—nothing," she said. Her face was bloodless.

(To Be Continued)

Facing The Future

Free Peoples Must Realize That They Have To Protect Their Liberty

The men in the British parliament who are demanding more armaments and speedier production are the true guides of our future policy. The past is past. Our leaders have decided, for good or ill, not to regard the dismemberment of Czechoslovakia as a casus belli. It cannot be revived now, no matter how brutally Hitler's minions behave toward their fallen foes. Still, we may be very sure that the old Biblical rule still stands: "Whosoever a man soweth, that shall he also reap."

But we must face the future. One meets a lot of very brave men these latter days since war has finally averted who talk about what should have been done and said at Berchtesgaden and at Munich. They were not so brave when it looked as if war was actually coming. But all free peoples, including our verbally beligerent American friends to the south, should realize today as never before that they must be prepared to defend their liberties if they hope to continue to enjoy them.

Criticism from Canada at this time seems especially pointless. How ready are we to join the forces of the Lord and fight at another Armageddon? Yet if we are not ready and willing to fight, we ought at least to have the becoming modesty to keep our mouths shut!—Montreal Star.

Should Not Be Specialized

McGill Principal Warns Against Too Many Cubby Holes In Education

A warning that the specialization of knowledge, and the separating of it into cubby holes, was not the chief aim of education was given by Principal Lewis W. Douglas in his address at Montreal to the graduating class and other students of McGill at the University Fall Convocation. Dr. Douglas maintained that specialization had been carried to such an extent that many were unqualified, by reason of the lack of possession of a broad cultural background, to hold that position, and urged his listeners to consider education as the process by which man interprets all the divisions of knowledge into a co-ordinated, integrated, unified conception of living.

Canada's Pedigree Animals

During the first five months of 1938, the number of pedigree animals registered with the Canadian national livestock records, approved by the Dominion minister of agriculture, totalled 29,411. The number includes 1,685 horses, 14,889 cattle, 2,959 sheep, 1,840 swine, 4,498 foxes, 2,921 dogs, 627 poultry and 22 goats.

The new car models will be out soon. There is a rumor that the choke has been put on the back seat driver.

Rheumatism

JUST DO WHAT YOU SEE IN THESE PICTURES TO RELIEVE PAIN QUICKLY

1. Take 2 "Aspirin" Tablets with a full glass of water the moment you feel either a rheumatic or neuralgic pain coming on.

2. You should feel relief very quickly. If pain is unusually severe, repeat according to directions.

To relieve pain of rheumatism or neuralgia quickly, try the "Aspirin" way—shown above.

People everywhere say results are remarkable. "Aspirin" Tablets are economical, which makes the use of expensive "pain remedies" unnecessary.

If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking "Aspirin" to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

250 Historic Sites

Marking Stirring Events In The History Of Canada

More than 250 monuments and tablets have been erected throughout Canada during the past 16 years to mark points of historic interest which have been declared by the Historic Sites and Monuments Board of Canada as being of outstanding national importance.

An honorary advisory board, the Historic Sites and Monuments Board, composed of recognized historians, co-operates with the National Parks Bureau and the Department of Mines and Resources in the marking and preservation of historic sites, and from the Atlantic to the Pacific stirring events in the history of Canada are recalled by tablets and monuments erected by the government—Canadian Resources Bulletin.

Plenty When It Came

Oklahoma City Suffered A Flood After Water Shortage

It was tough when Disney, Oklahoma, was without water. It was just as tough when water came. Short of supply since mid-July, residents left their faucets open constantly to catch every drop that entered the mains. City engineers found a good flow, hooked it on without notice. The new water supply boomed into the mains, the faucets, the homes. Disney suffered a flood.

Wales has banned the tacking of notices on trees.

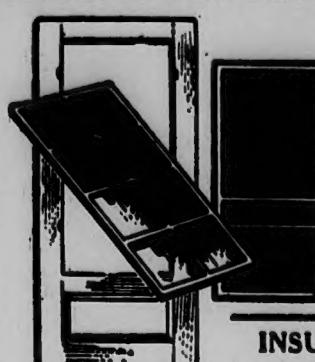

MUSCULAR RHEUMATIC PAINS—ACHES

It takes more than "just a salve" to bring relief. It takes a "counter-irritant" like good old Musterole—soothing, warming, penetrating and helpful in quickly overcoming the local congestion and pain when rubbed on the aching spots.

Muscular lumbago, soreness and stiffness generally yield promptly. Better than the old-fashioned mustard plaster, Musterole has been used by millions for 30 years. Recommended by many doctors and nurses. Made in Canada, in three strengths: Regular, Children's (mild), and Extra Strong. All druggists, 40¢ each.

Girl Guide Notes

The Ranger Group of the Girl Guides wish to thank all those who helped to make their show and dance a success on October 26th. We thank you.

The Ranger Group are meeting at 7:30 Thursday evening in the Basement of the School. The first enrollment will take place.

Armistice Day

Armistice Day, being a statutory holiday, all business houses will be closed all Day on Friday.

BIRTHS

Didsbury General Hospital.

November 5th, to Mr. and Mrs. Valentine Schafer of Sundre, a son.

Dated this 27th day of October,
1938.

LOCAL & GENERAL

Mr. Pete Miquelon went to Wetaskiwin on Monday evening to see his father who is seriously ill.

Ed Watkin won the cake that was raffled at the Neapolis School last week.

Support your local Brownie group and buy some delicious home-made candy when entering the show this weekend.

The I.O.D.E. will hold their annual novelty dance at the Opera House on Monday, November 21st. Admission 50c each.

Mr. M. B. Clemens, who had been visiting his daughters at Chelan, Washington, and Kimberley, B.C., returned home on Sunday.

Mrs. H. Halton of Pincher Creek is looking after the J. W. Halton family while Mrs. Halton is in the hospital.

A. Melville Anderson, Optometrist and Optician, 224 8th Ave. W., Calgary, established since 1910, will be in Didsbury on Monday afternoon November 14 at the Rosebud Hotel.

Mighty panorama of one of the world's greatest metropolises—its struggle and triumph, heartbreak and happiness.—"In Old Chicago" at the movies Saturday and Monday.

A special visit to Didsbury at the Rosebud Hotel will be made by K. Roy McLean, Optometrist and Optician, Southam Bldg., Calgary, on Wednesday afternoon, Nov. 23.

About ten members of the local Chapter of the Eastern Star paid a visit to the Acme Chapter on Monday last, when the grand worthy matron made her official visit to that Chapter.

The regular monthly meeting of the Women's Missionary Society of the Knox United Church will be held at the Manse on Tuesday November 15th at 3 p.m. All ladies of the congregation are invited.

It was Returned Veterans' Night at the meeting of the local Masonic Lodge on Tuesday evening. All chairs were occupied by returned men and they had full charge of the meeting. Reminiscences of the great war were given by Bros. Ed Craig, J. D. Thomas and H. Morgan which the large attendance of members thoroughly enjoyed.

Old folks, young folks, everybody come, Come to see the gypsies and make yourselves at home.

Leave your sticks of chewin' gum and rubbers at the door.

And you'll see the prettiest gypsies that you've never seen before!

—at the Knox Junior Choir concert Thursday, November 17th at the United Church at 8:15 p.m. Admission 25c and 15c.

Cheques for \$1,038,500 in payment for 195,000 tons of beets at \$5 30 a ton, the initial payment, have been mailed to 1,000 growers in Southern Alberta.

NOTICE Of Preparation of Assessment Roll 1938

Municipal District of Mountain View
No. 310. .

Notice is hereby given that the assessment roll of the said Municipal District, made under the provisions of the Assessment Act, has been prepared and will for thirty days be open to inspection at the office of the Secretary-Treasurer of the Municipal District from ten o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll, or to the assessment of any property, or to the assessment value placed upon any property must within thirty days from the date of this notice lodge his complaint in writing with the Secretary-Treasurer of the Municipal District.

Dated this 27th day of October,
1938.

A. Brusso,
Secretary-Treasurer.

Object to Sunday Funerals

Last Monday at a meeting of the Red Deer District Ministerial Association, a resolution was unanimously opposed to the holding of funeral services on Sundays because of interference with the regular worship services. The co-operation of the funeral directors and the general public is earnestly requested. The area covered by this Association comprises the towns from Innisfail to Crossfield.

Big Pictures Due For Come-Back

"The public forgets 95 percent of the movies it has seen because most of them are too narrow in their scope." This, Henry King, who directed the spectacular 20th Century-Fox picture, 'In Old Chicago,' insists is an over emphasis on camera intimacy.

"What the public never forgets is a production which carries with it the broad sweep of large scenes, the scenes which used to be called colossal and stupendous," says King. I think the public response to 'In Old Chicago' proves that we are in for the return of the bigger, and consequently better pictures."

"In Old Chicago" comes to the Opera House this Saturday and next Monday evenings (due to the Legion Concert and Dance this Friday evening). The production features Tyrone Power, Alice Fay, Don Ameche, Alice Brady and Andy Devine in a story of the rise and fall of the mid west metropolis of the 1870's. The climax is reached in the destruction of the city by the historic fire.
